

SKILLS PRACTICE SCENARIOS

SCENARIO A

1. In playing this role, you should adopt the age group of your listener's young people.
2. Different suggestions are in *italics* in brackets for the different ages

- You are being bullied by a boy/girl at school. S/he is two years above you.
- You don't know what you've done to make this happen.
- S/he is calling you names and getting your friends to laugh at you; s/he is asking you to play (*spend break*) with her/him and then laughing at you when you agree; s/he is getting other friends to arrange to meet you and then they don't turn up.
- You don't know if it is bullying because s/he hasn't hit you.
- You don't want to go to school any more.
- You pretend to be ill (*bunk off school and go to the park; wait 'til your mum goes to work and then go home*).
- You don't want to tell anyone because you are frightened this might make it worse.
